

PRIVACY POLICY

Effective Date: April 4, 2026

This Privacy Policy describes how **Sanousy Howari** ("I," "me," "my," or "the Developer"), the creator of **Unicorn P**, collects, uses, and handles information when you use my website <https://up.sanousy.dev/> and the Unicorn P server software (the "Service").

1. THE ZERO-ACCESS ARCHITECTURE

Unicorn P is a self-hosted engine. I operate under a "Zero-Knowledge" policy. Because the software is hosted on your own hardware or private cloud:

- **I do not host your data.**
- **I do not have access to your databases (MariaDB/MySQL).**
- **I cannot see your accounting records, exam data, or user lists.** Your business data remains 100% under your physical and digital control.

2. INFORMATION I COLLECT

I only collect the minimum information necessary to maintain your license and provide support:

- **Account Information:** Name and email address provided during registration.
- **Licensing Data:** To prevent software piracy, the software communicates with my licensing partner to verify your subscription status. This includes a unique hardware hash (Machine ID) and your license key. **No business data is transmitted during this check.**
- **Support Communications:** If you contact me for technical help, I retain those emails to assist you.

3. USE OF INFORMATION

I use your information solely to:

- Provide and maintain the Service.
- Validate your 14-day trial and monthly subscription.
- Notify you about software updates or critical security patches.
- **I will never sell, rent, or trade your personal information to third parties.**

4. THIRD-PARTY SERVICES (PAYMENTS)

I use **Lemon Squeezy** as my Merchant of Record. They handle all payment processing and tax compliance. When you make a purchase, you are providing your payment details to them. They have their own Privacy Policy which governs how they handle your credit card data.

5. DATA SECURITY

While your business data is stored on your own secured servers, I implement industry-standard security to protect the licensing and account data stored on my end. However, I cannot be held

liable for security breaches occurring on your self-hosted infrastructure (e.g., due to weak passwords, unpatched OS, or lack of firewalls).

6. DISCLOSURE OF DATA

I will only disclose your information if required to do so by law (e.g., a court order from the Hashemite Kingdom of Jordan) or to protect my legal rights regarding intellectual property theft.

7. YOUR DATA RIGHTS

You have the right to access, update, or delete the account information I hold. Since I do not host your business data, I cannot "delete" your accounting records; you must manage that on your own server.

8. CONTACT ME

If you have any questions about this Privacy Policy, please contact me at: **Email:** sanousy73@gmail.com **Website:** <https://up.sanousy.dev/>
